Required DHCP router
with NAT/firewall

RNET Multiroom Controller

RJ-45
Patch Cable

RJ-45
Patch Cable

Back

RCA Patch Cable
Connected to "Line-Out"

Power Supply

RJ-45 Patch Cable
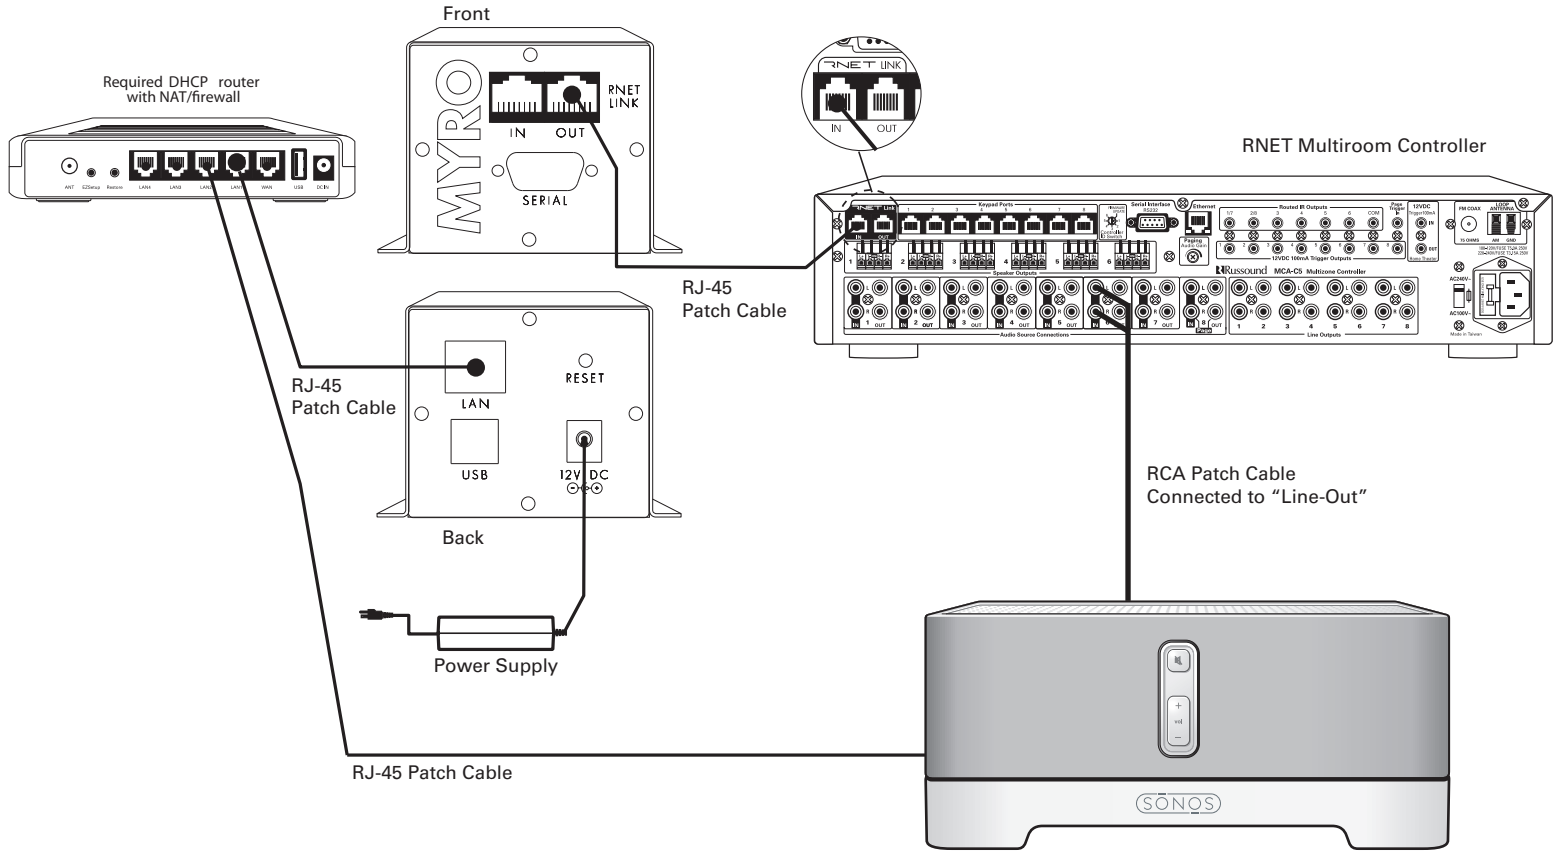

Sonos ZonePlayer must have analog outputs for it to
function as intended (models ZP80, ZP90, ZP100).

Follow instructions that came with the Sonos ZonePlayer
and confirm network and software is functioning before
adding and configuring myro:bridge to the network.
